Subject: Converted IDs in ATR

834s will be created later this morning for the following plans. The file will be in test with 041123.dlr as the name. Another file showing all members converted (crosswalk) has also been placed on the FTP server. This file name is 041123.CON.

Plan list for today.
010306 (Mercy)
010497 (Health Choice)
999998 (IHS)

With APIPA getting a file from the Unit Test, all the Acute plans will have received a test file. No LTC conversions have taken place, still working on correcting a problem encountered during Unit testing, problem only occurs with LTC enrollment.
